### Reflection by Fr. Naples

What is the significance of the keys of St. Peter? “The bishop of the Roman Church, in whom continues the office given by the Lord uniquely to Peter, the first of the Apostles, and to be transmitted to his successors, is the head of the college of bishops, the Vicar of Christ, and the pastor of the universal Church on earth. By virtue of his office he possesses supreme, full, immediate, and universal ordinary power in the Church, which he is always able to exercise freely. By virtue of his office, the Roman Pontiff not only possesses power over the universal Church but also obtains the primacy of ordinary power over all particular churches and groups of them. Moreover, this primacy strengthens and protects the proper, ordinary, and immediate power which bishops possess in the particular churches entrusted to their care. In fulfilling the office of supreme pastor of the Church, the Roman Pontiff is always joined in communion with the other bishops and with the universal Church. He nevertheless has the right, according to the needs of the Church, to determine the manner, whether personal or collegial, of exercising this office. No appeal or recourse is permitted against a sentence or decree of the Roman Pontiff. Bishops assist the Roman Pontiff in exercising his office. They are able to render him cooperative assistance in various ways, among which is the synod of bishops. The cardinals also assist him, as do other persons and various institutes according to the needs of the times. In his name and by his authority, all these persons and institutes fulfill the function entrusted to them for the good of all the churches, according to the norms defined by law. The official description of the Holy Father's Position, from the Code of Canon Law., #331-335.
